

Entry No. 2024UMT0192

MT-2-09: Fundamentals of Metal Extraction

Test - 1

Total Marks [15]

Date: 30 January 2026

Time: 09:00 to 09:50

1. Define **calcination temperature** using an example. [02]
2. Differentiate **electrostatic separation** and **magnetic separation**. Mention one example ore for each. [02]
3. Differentiate **comminution** and **sizing** process using one example for each. [04]
4. Differentiate the **oxidizing roasting** with **chloridizing roasting** using one example for each. [04]
5. Explain the significance of **pyrometallurgical**, **hydrometallurgical** and **hydrometallurgical** process for metal extraction. [03]
